

About Us

Welcome to the Crown Dental Plan Marketplace.

In 1988, Dr. Mark K. Meadows founded Crown Dental Plan in the state of Arizona and over thirty years later, the Company has expanded into multiple states within the United States.

Crown Dental Plan is focused on gaining greater market share in Arizona and the southwest region, while continuing to reach across the continent to become a nationwide network by 2025.

The Company

Crown Dental Plan provides affordable dental health care plans to individuals, businesses, and associations, and represents the best modern alternative to traditional individual and employer dental health insurance. In fact, the Company has expanded across the United States.

Mission Statement

Crown Dental Plan's mission is to provide greater access to affordable, quality, comprehensive, dental health care through our Membership plans, which offer dental services at reduced rates, making it possible for more people to improve overall health and wellness through procedures that correct, improve, and maintain oral hygiene.

Why Choose Crown Dental Plan?

Quality dental Providers, reasonable Membership fees, significant discounts on all dental procedures, comprehensive dental health care coverage for all, are attributes which make Crown Dental Plan the best option for dental health care coverage.

How does the Plan work?

Crown Dental Plan selects preferred Dental Providers whom want to provide high quality dental services to patients by offering attractive fees for dental services.

Crown Dental Plan charges low annual Membership fees per plan type, and Members are able to receive reduced rates on all Dentist and Specialist procedures. Crown Dental Plan Members save up to sixty percent (60%) off the Usual Customary Rate (UCR) that Dentist's typically charge per procedure. Plan Membership includes Provider Network discount on preferred General Dentist procedures, and Specialist procedure discount is twenty percent (20%) off the Specialist UCR.

With Crown Dental Plan Membership, patients can receive the dental work they need when price is no longer prohibitive. Unlike traditional dental insurance, Crown Dental Plan Membership has no deductibles, copayments or waiting periods, and even pre-existing conditions are covered. Annual Memberships are often one-third the cost of traditional dental insurance, even the annual Membership fee is typically recovered after only one office visit.

Altogether, savings is substantial. A broad Network of skilled Providers, performing an array of patient procedures, with unlimited annual discount benefits, make Crown Dental Plan the consumer's choice for quality dentistry at affordable prices.

Why choose Crown Dental Plan over a Dentist's in-house Plan or Special?

Another benefit of Membership in Crown Dental Plan is choice. Patients deserve a choice when considering dental health care Plans and Providers, cost and coverage, options to choose the best Dental Plan available. Many in-house Dental Plans use gimmicks like fake discounts or complimentary services, only to later charge patients higher fees for more necessary procedures. Some Plans hide exclusions in illegible contract font which also leaves many patients fooled, losing money and benefits. For example, all Membership benefits are lost when a Plan Member changes an in-house Dentist or moves to another region

With Crown Dental Plan, transparency is key. Unlike other Dental Plans that require enrollment before benefits can be understood or other in-house Plans that offer discounts on artificially high cost procedures that dentist's arbitrarily set, Crown Dental Plan Members can visit any Network Provider Dentist or Specialist and retain annual Membership benefits no matter which Provider is chosen or where that Provider is located.

Members can also visit the Crown Dental Plan website, Fees/Benefits section, to find the Crown Dental Plan Fee Schedule, derived from the American Dental Association (ADA), "Dental Fees, Results from the 2018 Survey of Dental Fees," and Members can evaluate price per dental procedure (s), and easily calculate the differential cost between Non-Member or Usual Customary Rate (UCR); "average fees" Dentists and Specialists typically charge for dental procedures, versus the cost per procedure and savings accrued with Crown Dental Plan Membership

Also, most dental offices offer "CareCredit®" which allows patients to finance dental work, and over a period of time pay interest free payments. At enrolled dental offices, Crown Members can finance dental work, and with Crown Membership, procedure savings reduces the overall cost which limits the amount needed to be financed.

Crown Dental Plan believes in full disclosure: allow Members to know the upfront cost of procedures, provide an easy cost and savings analysis per dental procedure; offer competitive prices to keep Membership affordable; ultimately help individuals, families, and businesses, be able to afford all dental services and reach and maintain optimal dental health and overall wellness throughout life.

Patients and Providers agree that Crown Dental Plan has proven to be the most cost-effective alternative to traditional dental insurance, providing patients access to affordable, quality, comprehensive dental health care, which makes Crown Dental Plan the most sensible consumer choice for dental health care coverage today.

Enroll now, and experience how your business, family, or association, can save on dental costs and gain greater benefits and greater health, with Crown Dental Plan Membership, "The Affordable Dental Plan."
